FLAME RESISTANCE

California Technical Bulletin 117-2013

UFAC, Class 1

NFPA 260

Crypton® FR is available to meet CRIB 5, Boston, New York, IMO Res. A.652 (16) & Cal. 133. Yardage minimums apply.

MADE IN

GENERAL CLEANING METHODS

Studies with ASCR show that nothing works better on Crypton® than a powdered enzyme detergent, such as Tide® or Cheer® mixed with water. Be sure to rinse with a clean cloth and clear water. The fabric must be rinsed thoroughly, leaving no soap residue. Because Crypton® fabrics were designed for easy maintenance, the use of solvent-based cleaners is unnecessary. In fact, some heavy-duty solvents can damage the textile's fibers. To be safe, we recommend that you do not use solvents in the general maintenance of Crypton® fabrics.

Additional cleaning information can be found at www.cryptonfabric.com

Crypton is protected by ten global patents -

U.S. PATENTS 6,541,138, 6,492,001, 6,251,210, 6,207,250, 6,165,920, 6,024,823, 5,747,392, 5,565,265, and 6,884,491 - OTHER U.S. AND INTERNATIONAL PATENTS PENDING.

CLEANING INSTRUCTIONS

Upholstery vinyls are easy to clean. To prevent build-up of dirt and contaminants, which may cause permanent staining, periodic cleaning is highly suggested. The frequency of cleaning is dependent upon the environmental conditions the product is subjected to.

ANTISEPTIC SURFACE TREATMENT

Liberaly apply diluted disinfectant using a sponge, rinse with cold water several times, then wipe dry. Dilution Rates: 6% Clorox - 94% Water; 6% Purex® - 94% Water; 6% Javex - 94% Water; Fantastik®, Lysol® (uncolored solutions), Dettol Solution, or Formula 409®

NORMAL OFFICE/HOUSEHOLD USE

Most stains can be easily cleaned using warm, soapy water and clear water rinses. Moderate scrubbing with a medium bristle brush will help to loosen soiling materials from the depressions of embossed surfaces. For more stubborn stains, use commercially available mild detergents (Formula 409®, Fantastik®, Mr. Clean®) in accordance with the manufacturer's instructions. Full strength rubbing alcohol or mineral spirits may be tried with caution if the listed cleaners do not work. Indiscriminate use of strong solvents can severely damage or discolor vinyl.
