

Stay **cool** in the **OR**

The Cardinal Health™ **CoolSource™ Cooling System**

The untethered **solution** to help keep you feeling **cool, comfortable, and confident**, so you can **focus on what you do best**.

The CoolSource™ Cooling System is designed with six pockets to hold cooling packs on the abdomen, back and over the shoulders to lower core body temperature and maximize cooling[†] — especially during long and labor-intensive situations. Plus, the vest conforms to the body, providing a custom fit that moves comfortably with you under your personal protective equipment (PPE).

Key features

CoolSource™ Cooling Vest

- Lightweight, **disposable design**
- **Six pockets** intentionally placed for cooling dispersion
- Non-sterile, worn **underneath PPE**
- **Velcro®** closures
- Belt for **adjustable fit**
- Patent Pending design
- It can be added to your **custom procedure pack**

CoolSource™ Cooling Pack

- Lightweight, **flexible design**
- **Six reusable cooling packs** used per cooling vest
- **Non-woven casing** helps to prevent condensation
- Cooling duration may **last 2+ hours[†]**
