Presource Products and Services
Standard Pack Solutions

Driving efficiency and productivity with standard pack solutions

CardinalHealth
Essential to care™

We offer custom and standard kits across all procedural areas:

Operating Room

Cath Lab

Interventional Radiology Lab

Endoscopy and GI Suite

Emergency Room

Women's Health

Nursing Floors

Some procedures benefit from a standard kit, and more robust procedures need the flexibility and customization of a custom kit. Our team works with you to evaluate your current practices and determine the best mix of kits to meet your needs.

Cardinal Health™ Presource Products and Services is the provider of low cost, high-quality kitting solutions to help improve your cost effectiveness and ability to serve patients. We offer custom and standard kits to best meet your needs. Our standard kits contain the core components needed for common surgeries providing savings and efficiencies when compared to purchasing, managing and picking items separately for your cases. With Presource® standard packs, you can count on high-quality items to be used in your procedures, promoting a safe and consistent standard of care. The result is a more efficient supply chain with increased staff satisfaction and safety, and more time for patient care.

Our promise: We go above and beyond to help you reduce costs and deliver high quality care.

How you benefit from a standard procedure pack program:

- Increased efficiencies and cost savings opportunities through practice and process changes
- Product standardization
- Supply consolidation
- Improved inventory management

Presource Products and Services

Presource Products and Services is the provider of low-cost, high-quality Presource® kitting solutions serving integrated healthcare providers across the continuum of care with innovative products and services that improve their cost effectiveness and their ability to serve patients.
